- Have curiosity
- Independent

MODULE

Module MTCNA

PROFILE

Introduce my name is Silvyamelia Perdani. I am sixteen years old. I love learning new things about IT, especially in the field of network and sysadmin. Here i am still a beginner and I started learning with the network from the proxy, and now i am interested in cloud computing and now I am also learning aws cloud.

HARD SKILL

● MikroTik - MTCNA

Fundamental, Network management, Bridge, Firewall, Web Proxy, Static Routing, Wireless, Hotspot, QOS, Tunnel

● Cisco - CCNA

Basic Cisco, Switching Management (Vlan Trunking, Allowed Trunk, Dynamic Trunking Protocol, Virtual Trunking Protocol, Trunk MLS, Security Port Switch) Routing Management (DHCP Server Router, Routing Static, Inter Vlan Routing, Routing Dynamic OSPF, DHCP Router pada Switch MLS, DHCP Relay), Access List (Standard Access-list, Extended Access List), NAT Cisco (Static Cisco, Dynamic Cisco), Cisco Server (Web Server, DHCP Server, DNS Server)

● Linux - Debian / Ubuntu

Instalation Via Virtual Box, Basic Comand Line, Management User and Group, Management File and Directory Permission, Configuration IP Address, Repository), Remote Access, DHCP, DNS, IP Tables, Web Server

● AWS - Certified Cloud Practitioner

Concept Cloud computing, Concept (Private Cloud, Public Cloud, Hybrid Cloud) Billing and pricing, IaaS, PaaS, SaaS, IAM (create user & group, add user to group), MFA, EC2, EBS, AMI, ELB, ASG, S3 (create bucket, bucket policy, versioning, replication, public access, static website), Dynamo DB (create table and add new item), RDS (create database, snapshot, share snapshot), VPC (create VPC, subnets, security group, internet gateway, route table, VPC peering)

CERTIFICATE

- 2nd Place Network Administrator- AtswaNesa
- Certificate of attendance RedHat System Administrator I (RH124)
- Certificate IT Support Google - Coursera
- Certificate AWS Academy Graduate - AWS Cloud Foundation
- SoftSkill - Inco Academy Work In Tech
